Career Tips Thursday: Session 38

Navigating your career with AI: smart prompts, ethical and practical strategies

UN Women and UNICEF
Special guest:
Rishan Mohamed - hiringcoach.ai

Agenda

- Identify some practical tips to use AI safely in the UN system

- Reflect on using AI tools ethically, to highlight your unique strengths

- Gain hands-on insights into how various AI tools can support you in your career management.

CAREER TIPS THURSDAY

To start: a few tips on safety

- Do not sign up using your UN agency email address.
- Avoid entering personal data.
- Do not share confidential or sensitive information.
- Always verify AI-generated content — it may be incorrect or biased.

Data Protection
VECTOR ILLUSTRATION

Use AI or being used by AI? On being Unique

Use AI to amplify your strengths

- Shape AI outputs with your own language and lived experience

- Avoid "copy-paste thinking"

- Reflect your values and context

- Shape AI outputs with your own language and lived experience

- Use AI to gain perspective, not to outsource your identity

- Stay aware of ethical boundaries
