# SPARKBLUE

Fostering collaboration and new knowledge in the Communities of Practice of UNDP

SparkBlue is a digital platform curated by facilitators and advisors across UNDP, connecting internal Communities of Practice and external, multi-stakeholder engagements that empower UN entities to engage in creating new knowledge and distilling critical learning insights in real-time.

With a suite of tools and features, SparkBlue empowers UN agencies to think out loud, learn from each other, connect, collaborate and co-create. It drives inclusive and measurable engagements that empower collaborative learning.
