AAFI-AFICS

Pre-retirement Seminar

UNOG and ILO 2022: 13 October

- Presenters:

Odette Foudral

Dev Ray

Pierre Vangeleyn

AAFI-AFICS

- Why an association of retirees?
- Our areas of activity
- We can help you
- Why join?

AAFI-AFICS: The oldest retiree association...

1955: AAFI-AFICS comprises
the AMICALE of the ILO and
the ASSOCIATION of the League
of Nations

2022: 3100 members in 94 countries

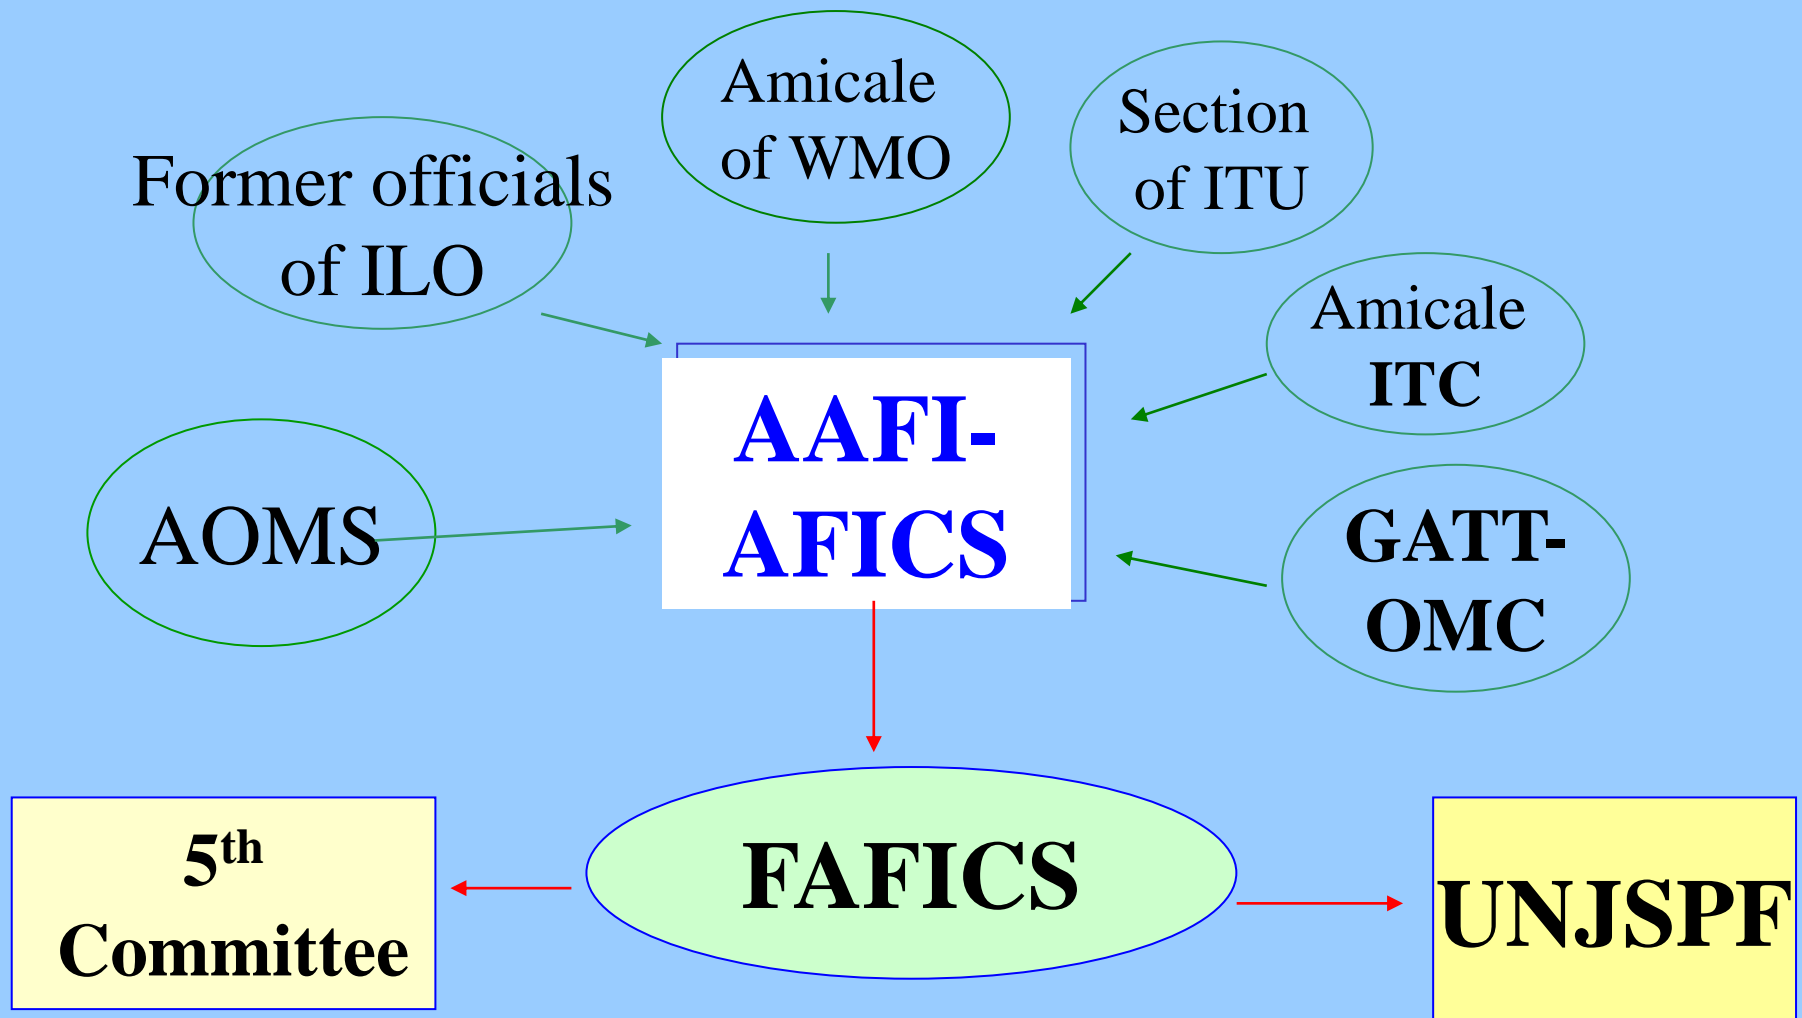

Aims of AAFI-AFICS

“...Studying, proposing and taking measures to promote and protect the rights and interests of former international civil servants and their survivors.”

(article 1 of the Statutes)

Our place in FAFICS

Political role of AAFI-AFICS

More members

The more united the retirees are the more their voice will be heard through FAFICS, which participates and is listened to in the Joint Staff Pension Board (this is the only way we exist: retirees are no longer active staff and have no part in decision-making). This responsibility lies with you.

More members=more credibility: for ASHI

Since January 2015 a Working Group created on the recommendation of the General Assembly is examining the requirement of health insurance coverage for retirees and active staff.

FAFICS has 4 delegates to protect acquired rights and prevent decisions based solely on cost considerations.

ASHI

A final report was submitted in late 2018 and considered by the UN General Assembly. This temporarily ends the mandate of the Working Group.

Resolution (A/res/73/662) requests more information on national insurance.

A new report of the Secretary-General was considered at the 76th session (A/76/373). It should be noted that FAFICS has not participated since 2019 despite requests.

Pensions

Presenter:

Dev Ray

In pension matters, retirees normally come to AAFI-AFICS when they:

1. **Want information** (on rules, regulations, procedures, current events, taxation, etc).
2. **Want advice** (on best time to retire, lump sum, two-track system, etc).
3. **Follow up with the UNJSPF offices**
4. **Want to get their views heard and taken into account** (on issues of concern to them – locally and at the level of the UN system)

How AAFI-AFICS can help

1. Information on pensions

- a) Upon request, we can refer you to, or help you access, existing reports, publications, etc. authored by AAFI-AFICS or others;
- b) Upon request we can give explanations or get them from official sources;
- c) We issue publications, including a Newsletter and a Bulletin and organize information seminars from time to time.

How AAFI-AFICS can help

2. Advice on pensions

- a) Primarily, we share our own experiences
- b) We can also help you get in touch with appropriate staff of the UNJSPF Offices

3. Follow up with UNJSPF Offices

We act as intermediaries to facilitate and speed up communication, and we nudge the Office to expedite action.

How AAFI-AFICS can help

4. Getting your views heard

- a) Locally, we forward views and concerns to the Fund's Geneva Office, and discuss them at our meetings with appropriate staff in the Office;
- b) At the level of the UN System, we bring views and concerns before the relevant bodies of FAFICS and the UNJSPF

Information

Recently on

50th FAFICS Council (Virtual session, July 2021 and 2020); 51st FAFICS Council (Virtual session, February 2022)

69th Session of the UNJSPB (Virtual session, 22-30 July);

The three 2022 sessions will report to the General Assembly. The reports will be accessible only at that date.

Examples / 2

Advice

The dominant topics continue to be

- a) the taxation of pension benefits,
- b) and related to that, the choice of country of residence after retirement

Examples / 3

Follow up

Prevailing topics continue to be

- a) Certificates of Entitlement; especially registration of the digital CoE
- b) Administrative paperwork following the death of a beneficiary

Examples / 4

Issues

- a) Locally: Access to the staff of the Geneva Office of the UNJSPF. Difficulties to access the UNOG for members of other organizations
- b) System-wide: The two-track system and the representation of retirees on the SPCs of Member Organizations and at UNJSPB sessions

PUBLICATIONS

The publication “Ageing at home”, relating to the 2012 seminar, is still available.

The presentations of the speakers are available on our website

Why become a member?

- Remain in the international community while getting into the local community
- Stay informed
- Participate in activities
- **Support the action of AAFI-AFICS in its representation in the Pension Fund**
- Contribution: for life: CHF 400
Contribution reduced to CHF 150 for sister organizations in Geneva

Annual: CHF 40

Becoming a member

Of course you should also join your organisation's association to maintain contact with your close colleagues

Joining before you retire

- The Association advises you in the preparation of your retirement
- You are sure to stay in touch even if you move
- Life membership is easier to finance and less expensive (CHF 400 instead of CHF 600, the difference being to cover administrative costs)

Why join before you retire

Joining means preparing
and protecting your future

To take advantage of being
informed and to take the
right decisions

Social Action

Solidarity Fund ***(personalised help in emergencies)***

- The President decides on requests for grants or loans.
- Cases of illness or death have priority.

The Fund does not provide loans

Advice from a retiree

Place of residence

- Dream location or nightmare!!!
- Austria no longer admits retired foreigners...
- You need to plan for the next 20 years...
- **The situation during COVID showed how important it is to think carefully**

Plan ahead

- Planning for your retirement means getting involved in local life, creating or re-creating a circle of friends
- Learning the language, if not already done, and thereby having access to local facilities
- Putting your papers in order so as to make things easier for your family
- Getting used to being subject to taxation on our income

Plan ahead

- Take advantage of the internet to stay in touch and to learn
- Let us have your email address **so as not to be isolated**. Only 75% of members have given us an email address

Manage your time

- **Don't be eaten up by family just because you have time! Available: yes, Overwhelmed: no!**
- Stick to a pattern that fits in with local life (don't surf all night and then go AWOL)
- Become a volunteer (associations suffer from diminishing numbers of volunteers. Training is available)

Planning for the future

- Draw up a budget before deciding whether to take a lump sum
- Keep your close ones informed about medical insurance and pension (putting your papers in order does *not* invite problems)
- Stay informed about developments regarding pensions and health

Could we have foreseen?

- The pandemic that hit us for over two years
- We strengthened our family ties and our circle of close friends
- Social activities suffered and some will never return, alas
- **Only digital links allowed us to stay in touch, so we really need to be familiar with them...**

Common sense

- If you're buying a house think about age-related difficulties and receiving elderly parents
- Put aside money for living in an EMS
- Make sure you have access to medical practitioners

Take up studies again

- University of the 3rd Age
<http://www.unige.ch/uta/utach.html>
- Not before the autumn...
unfortunately
- “Be and remain mobile”
- Courses begin again as of June!

Use local services

- Take the time **right away** to find out about activities available near you

For example:

Cité-séniors in Geneva (rue de Lausanne)

Retirees, Where to get information?

- Centre Local d'Information et de Coordination, C.L.I.C. Pays de Gex
 - Welcome, **04 50 41 04 04**
 - information 167 Rue de Genève
01170 GEX
 - and orientation **clic@paysdegexagglo.fr**
 - Centre Communal d'Action Sociale,
C.C.A.S (Mairie)

Local services

- Haute-Savoie, 5 centres for age-related issues
 - Annecy-ouest 0450 65 56 40
 - Annecy-est 0450 08 35 73
 - Vallée de l'Arve 0450 96 84 85
 - Genevois 0450 84 40 06
 - Chablais 0450 81 89 34
- www.ageplus74.fr

EXIST

- You are perhaps unknown to local French administrations
- **You must register** with the local Mairie if you want to be informed about activities and participate

Medical insurance: some traps to avoid

- Your premium is calculated on the basis of your complete pension even if you take a lump sum
- Think carefully before giving up your complementary insurance

AVS

- If you live in Switzerland,

You must pay into the AVS until you reach the legal age of retirement (65 years).

It won't give you much income, but certain medical expenses may be covered.

Taxes in Switzerland

Consult a tax accountant (fiduciaire), at least the first year.

Taxes in France

Note that the first year you will pay in one go in September, which can represent a large amount.

In 2019 the withholding tax will be applied in a monthly withdrawal from your bank account on the basis of the previous year's tax.

You can do a simulation at the following address:

www.impots.gouv.fr/

Taxes in France

Taxes applied to the lump sum:

The French Government was contacted in 2012 by the UN legal service but never responded

The Pension Fund also followed up but without success to this day.

The application of tax has therefore become a fait accompli

In France: “LA SECU”

- If you worked three months in France you are covered by social security (in France only).

NOTE : as of 2011 this implies paying CSG on your UNJSPF pension (7.5%) unless you are not covered by the health insurance (steps to be taken!!). Otherwise you will not pay more than the amount of your French pension

In France: LA SECU

This can become your basic insurance
and make your organization's health
coverage your complementary
insurance.

In France: LA SECU

- Note: if you take up a paid activity in France, this implies joining the SECU and gives rise to charges that will exceed your income (calculation of contributions on the family income!!!) and payment of CSG on the UN pension.

You're not seniors

You're entering the leisure age

Life expectancy is:

88.4 years for women

79.5 years for men

It's how old you feel that will determine consumption patterns, since this governs desires, needs and choices.

Remember

**An active person does not have a
minute**

A retiree does not have a second

And above all

You have knowledge to transmit...

Seniors have rights

This is recent

2012

New constitution in Geneva

2014

MONALISA report in France

**Seniors are beginning to be
noticed in the UN**

**UN Social Forum in the framework
of the Human Rights Council**

**An independent expert on the
rights of older people has been
named by the Secretary-General
of the UN**

**There are several groups at work,
in particular:**

The NGO on ageing in Geneva

**The Open-ended group on ageing in
NY**

The ECE

The Economic and Social Council

**And the Platform of seniors'
associations in Geneva**

But careful

You will be a target for people trying to sell you something

Be Vigilant

Don't give out information about your accounts or access codes

The future is for you to build

You can't help
getting older,
but you don't have
to get **old.**

(GEORGE BURNS)

AAFI-AFICS

**Reminds you that the pandemic
has made us vulnerable and
isolated.**

**Belonging to a group means being
better informed and feeling less
alone.**

AAFI-AFICS

**Wishes you a retirement rich in
activities where you can also
remain useful “ambassadors”
of the United Nations family**
